

Cartin24 Extension Installation Guide For Magento 2

Build , Sell & Celebrate

INSTALLATION GUIDE

1. Download the Cartin24 Extension zip file and unzip it on your system. You can see the folders inside the extension package.
2. Use FTP client (such as Filezilla) to upload or copy all folders in the zip package to your Magento site.
3. In your Magento root directory, create folder `app/code/Cartin24/` and upload the files and folders to the directory.

4. Log into the admin panel and. Navigate to the Cache Management page (System -->Cache Management), selecting all caches, clicking "disable" from the drop-down menu, and submitting the change. Or by running the command `"php bin/magento cache:disable"` from your magento root directory in command line.

5. Navigate to your Magento 2 root directory using `"cd"` in command line. Enter the following at the command line:

- `php bin/magento setup:upgrade`

- php bin/magento setup:di:compile
- php bin/magento setup:static-content:deploy
